

SOLO EXTREME ONE STEP COMPOUND

TECHNICAL DATASHEET

Product Description

The BAXT Solo Extreme One Step Compound is a highly efficient new-generation polishing compound. Due to the high quality and quantity of aluminium oxide in the formulation, it promises a highly effective and easy one-step process. It rapidly removes abrasive sanding marks from P1500 and above for a perfect glossy finish. The unique formulation prevents the surface overheating and allows for easy cleaning.

Product Code:

PBSE10

Description:

Solo Extreme One Step Compound - 1L

Product Data

Density	1.04 g/cm ³
Colour	White
Cutting force	4/5
Gloss Level	5/5
Application	Manual, Rotary and Orbital machine

Recommended Applicators

BAXT Lambswool Polishing Head

Usage

- Apply the compound onto the surface or the applicator (foam or lambswool)
- Polish using an orbital polisher, with the optimum speed range of 1200-1600 RPM (max 2000 RPM) with a low or medium pressure
- Polish until all imperfections are removed
- Change the polishing pad to a soft finishing foam and polish until a full gloss is achieved

Storage

This product performs optimally at temperatures between 15°C and 25°C.

Keep it in a sealed container within the range of 0°C to 45°C.

Avoid freezing, store away from acids and oxidizing agents, and keep it away from heat sources.

Safety

This product is intended for professional use only. Applicators and operators must undergo training, possess relevant experience, and have the necessary skills and equipment to safely and effectively use the products in accordance with BAXT's technical documentation. When using this product, applicators and operators should utilize appropriate personal protective equipment. This guidance is provided based on the current understanding of the product.
