## TRANSFORMING ACCIDENT REPAIR CENTRE WITH BAXT WP10

*"We have used various types of spray booth wall coverings over the years, but I can confidently say that BAXT WP10 is a game changer"*

**- Manager**

## OVERVIEW

A professional accident repair centre, with over 25 years of experience, faced ongoing challenges with the durability and installation of various spray booth wall coverings, leading to frequent maintenance and workflow disruptions. By switching to BAXT WP10 5-Layer Spray Booth Protection Film, they achieved long-lasting protection, seamless installation, and enhanced operational efficiency. The film's durability and strong adhesion minimised maintenance needs, while BAXT's helpful YouTube installation guide enabled easy setup. The repair centre praised WP10 for its superior performance, noting significant improvements in productivity and overall satisfaction.

## CHALLENGE

The accident repair centre faced ongoing challenges with the durability and adhesive strength of their spray booth wall coverings. The centre needed a reliable, easy-to-install solution to withstand heavy use without sacrificing quality or efficiency.

## SOLUTION

The centre chose BAXT WP10 5-Layer Spray Booth Protection Film, the film's robustness eliminated adhesive failures and peeling, while its flexibility made the installation process seamless, especially with the help of BAXT's detailed YouTube guide.

## RESULTS

The switch to BAXT WP10 led to:

- **Reduced Maintenance**
- **Enhanced Workflow**
- **Team Satisfaction**

## TRANSFORMING ACCIDENT REPAIR CENTRE WITH BAXT WP10

### CHALLENGE

During the 25 years in the automotive refinishing industry the accident repair centre had worked with various types of spray booth wall coverings. Over time, they encountered multiple issues with durability, adhesive strength, and the ease of installation. The previous coverings would often peel or degrade, leading to frequent reapplications and increased downtime, which affected their overall workflow. To keep up with the demands of their busy workshop, they needed a durable, easy-to-install wall covering that could stand up to heavy use without compromising quality or efficiency.

### SOLUTION

The Solution: BAXT WP10 5-Layer Spray Booth Protection Film

After choosing the BAXT WP10 5-Layer Spray Booth Protection Film, the repair centre saw immediate improvements:

- **Durability:** WP10 exceeded expectations, showing no signs of adhesive failure or peeling, even after months of continuous use.
- **Ease of Installation:** The thickness and flexibility of the material made installation a smooth process. With the help of BAXT's detailed YouTube installation guide, the centre was able to complete the setup efficiently, without needing to contact customer support.

### RESULTS

The switch to BAXT WP10 significantly improved the centre's spray booth operations, offering key benefits such as:

- **Minimised Maintenance Needs:** The long-lasting adhesion and durability reduced the frequency of maintenance, saving valuable time and resources.
- **Enhanced Workflow:** With WP10 in place, the repair centre was able to maintain a cleaner, more efficient workspace, improving overall productivity.
- **Highly Satisfied Team:** The repair centre praised the quality and performance of WP10, noting that it outperformed other market-leading products they had used previously.

*"The durability of WP10 is impressive; even after months of heavy use, it shows no signs of adhesive failure or peeling. BAXT's YouTube installation video was incredibly helpful and made the process straightforward."*

*"I highly recommend BAXT WP10 to anyone in the refinishing industry. It has exceeded our expectations in both quality and performance!"*

BAXT WP10 5-Layer Spray Booth Protection Film is the ideal solution for automotive refinishing centres seeking a durable, easy-to-install, and highly reliable spray booth covering. It simplifies maintenance, accelerates workflow, and enhances overall operational efficiency.
